

## Flooding and Docks May 2026

For those interested in replacing a dock damaged in our recent flooding, the Lovells Township Zoning Ordinance is based on the Natural Rivers Act and limits docks in the Green Belt (400 feet either side of the river).

### SECTION 5.06 - ACCESSORY STRUCTURES (Amendment #4-13-21)

On rivers and streams, no more than one (1) dock per parcel is allowed, no more than twelve (12) feet in length, no more than four (4) feet in width, and extending no more than four (4) feet over the water.

*Replacement docks should conform to current regulations.*
